**Subject:** RE: GKM - Upper Gladstone Pond Liner Area Rough Estimate

Thanks. Waiting on some call backs, but so far the word on the street is that spray-on liners are the most expensive option we could pursue. If that is still the latest brain storm, you may want to pass on that tidbit.

**Subject:** GKM - Upper Gladstone Pond Liner Area Rough Estimate

Matt

All these are in SF, based on my drawing assuming a 2:1 slope on the outer berms and google earth widths. The 20% addition is to account for any field edits, an accurate measurement will be made when the ponds are fully roughed in.

Pond 1	Pond 2	Pond 3	Pond 4	Total
8700	5300	6400	3500	23900
Total with 20% SF Add				29000

Thanks,  
Elliott
